Problem with display in Ceel	3ot simulator
I downloaded CeeBot4, but there is a pr properly. Any idea how I can fix this?	oblem with the graphic display in the simulator: the upper half is not displayed
Re:Problem with display in C	eeBot simulator
Hi Jeff,	
	eBot. As far as I know, all those problems could be sorted out by installing the d. You can find it on the website of the producer. Many 3D cards are sold with dates will correct these bugs.
